

SAFE Credit Union Intranet Training Site

Client

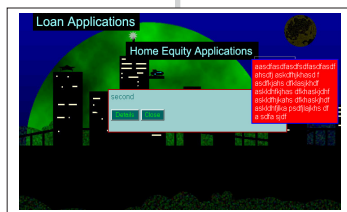

SAFE Credit Union is a billion dollar strong credit union based in Sacramento, California.

Challenge

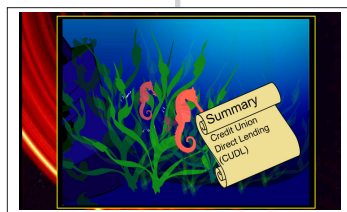

Most training systems are fairly dry in their presentation. More engaging systems cannot be updated by the trainers. SAFE Credit Union sought a versatile and flexible training system that would keep the interest of trainees.

Solution

New Eras Media created a training system from scratch to meet SAFE's needs. The system allowed for development of interactive and entertaining content with minimal training. It also tests and tracks employee training test scores.

Results

The system is easy to use for both trainers and trainees. Most importantly, the training system keeps the interest of trainees—meaning they learn the subject well and use that knowledge to successfully meet customer needs.

Key Skills Involved

- ASP
- SQL Server
- Internet Information Server
- Employee Training
- Flash
- JavaScript

“New Eras Media worked hand in hand with us to make sure the training system was just what we were looking for. They listened to our needs and delivered.”
